PROFESSIONAL SUMMARY

Motivated and detail-oriented Computer Science student specializing in frontend and full-stack web development. Proficient in HTML5, CSS3, JavaScript, PHP, and SQL with hands-on experience building responsive, performance-optimized web applications from the ground up. Passionate about delivering clean code, seamless user experiences, and maintainable server-side solutions.

EDUCATION

National College of Business Administration & Economics (NCBA&E) *Lahore, Pakistan*
Bachelor of Science in Computer Science (BSCS) *Expected Graduation: 2028*

TECHNICAL SKILLS

Programming Languages: JavaScript, PHP, SQL

Web Technologies: HTML5, CSS3, Bootstrap 5

Developer Tools: VS Code, XAMPP, Git

Core Concepts: Web Development, Responsive Design, Relational Databases, RESTful Logic, Form Validation, Server-Side Scripting

PROJECTS

zyrodev.online — Personal Portfolio Website *HTML5 · CSS3 · JavaScript · Bootstrap 5 · PHP · SQL*

- Architected and deployed a fully custom, responsive digital portfolio from scratch to showcase web development projects, technical skills, and contact information to prospective clients and employers.
- Engineered a dynamic PHP backend to handle server-side form processing and contact submissions, achieving a **100% successful delivery rate** across all form interactions.
- Implemented responsive layouts using Bootstrap 5 and custom CSS3, ensuring seamless, pixel-perfect rendering across mobile, tablet, and desktop viewports.
- Optimized site performance and code quality, resulting in **zero broken links** and fast loading speeds across all tested devices and browsers.
- Integrated SQL-based backend logic to support data management and server-side application state, reinforcing full-stack development principles.

CERTIFICATIONS

Web Development — Verified Certification in foundational and applied web development principles including front-end and back-end technologies.
